THE DIVERS ARE AT WORK.

They Discover The Hole in The Maine's Bottom.

SIGSBEE BEFORE SPANISH JUDGE

President Had Not Heard of the Hole. Report of Startling Message From Sigsbee--Burying the Dead.

By Wire to THE TELEGRAM.

Key West, Feb. 17—A correspondent from the scene of the wrecked Maine says that divers have been working about her bottom and have discovered an eight inch percussion hole in her plate. Admiral Manterola has summoned Sigsbee to appear before military Judge Horal and make the necessary depositions. All proofs of torpedo work will be removed. Another man of war is expected to arrive at Havana tonight.

BULLETIN SHOWN THE PRESIDENT.

Washington, Feb. 17.—The Key West bulletin regarding the hole in the plate of the Maine was shown to the president. His only comment was that it was the first he had heard of it. He does not wish to make any statement but said the administration had no advices confirming the report.

A STARTLING REPORT.

Washington, Feb. 17.—It is reported that Captain Sigsbee has made a startling report to the navy department which the government is keeping secret.

REPORT DENIED.

Secretary Long says he has not suppressed a dispatch from Sigsbee expressing an opinion that a torpedo struck the Maine.

TO INVESTIGATE THE CAUSE.

Havana, Feb. 27—Admiral Manterola has notified Sigsbee that a joint committee of American and Spanish naval officers will be appointed to investigate the cause of the explosion.

BURYING THE DEAD.

Havana, Feb. 17—The city buries today the fifteen mutilated bodies of the Maine's sailors which floated ashore yesterday. The ceremonies are according to the Spanish rites under Bishop of Havana Manuel Santander who has given ground for interment. The bodies will be exposed in the city hall before burial. American citizens are incensed and think that Americans should bury their own dead. The expense will be borne by the municipality of Havana. The Spanish authorities have seemingly taken charge of the investigation of the disaster. The American commander has been notified to appear before their military judge.

VISITORS ABOARD.

New York, Feb. 17—A cable to the World says in reply to an inquiry that visitors were permitted on the Maine all day and might easily have deposited a bomb near the magazine and thus have produced the explosion.

PREPARING TO RAISE THE MAINE.

Washington, Feb. 17—Already plans for raising the Maine are being considered. The wrecking crews have been directed to proceed to Hayana.

TORPEDO STORY DISCREDITED.

Key West, Feb. 17—Purser Denison of the Olivette does not believe the Maine was destroyed by a torpedo.

WILD EXCITEMENT IN HAVANA.

Havana, Feb. 17—The report that divers have found an 8-inch hole in the Maine, which indicates a torpedo, is causing great excitement. It is believed here that some Spanish fanatic or secret emissary of the government floated a torpedo under the water line against the Maine's forward magazine and set it off with a detonating device giving him time to escape. It is stated that this is Capt. Sigsbee's belief and that he has communicated it to the navy department.

STORY DISCREDITED.

Washington, Feb. 17—The navy department absolutely discredits the story from Key West to the effect that divers found an eight inch percussion hole in the bottom of the Maine.

TWENTY BODIES RECOVERED.

Havana, Feb. 17—So far only twenty bodies have been recovered.

MOBILIZING THE FLEET.

Washington, Feb. 17—It is evident this afternoon that the navy department is mobilizing the fleet so as to hold it within four hours of Havana. The Cruiser Montgomery has been ordered from San Domingo to Key West.

JOURNAL SAYS A TORPEDO.

New York, 3:30 p. m., Feb. 17—The Evening Journal's special cable says that the Maine was blown up by a torpedo.

FROM THE MORNING PAPERT.

NORTH CAROLINIANS ON BOARD.

Trubic Finch, Raleigh; John H. Moss, Oxford; John Warren, Randolph; Henry Williams, Elizabeth City.

CAPT. SIGSBEE NON-COMMITTAL.

Havana, Feb. 16.—Captain Sigsbee, interviewed this evening by the correspondent of the Associated Press, with reference to the cause of the explosion, said: "I cannot yet determine the cause, but competent investigators will decide whether the explosion was coused from an interior or exterior cause. I cannot say anything until after such an investigation has been made. I will not and cannot conscientiously anticipate the decision nor do I wish to make any unjust estimate of the reason of the disater."

TOLD BY OFFICERS OF THE MAINE.

Havana, Feb. 16.—On board the Ward Line steamer City of Washington, one of the officers of the Maine today said that at 8 o'clock last night all the magazines on board the battleship Maine were closed and that the keys had been turned over to Captain Sigsbee, the commander. The explosion occurred at 9:45 o'clock.

ONLY 96 SAVED.

Havana, Feb. 16.—Out of 354 the total number of the crew of the Maine, 96 were saved. The large number of deaths reported among the crew of the Maine is said to have been due to the fact that most of them were asleep below at the time of the explosion. Most of the officers saved were dining on board the City of Washington. It is reported that the disaster was due to the explosion of the boiler of the dynamo machine on board the Maine.

CONSUL LEE'S REPORT.

Washington, Feb. 16—The following cablegram was received by the State Department from Consul General Lee, at 9:16 tonight:

"Havana, Feb. 16—Profound sorrow is expressed by the government and municipal authorities, consuls of foreign nations, organized bodies of all sorts and citizens generally. Flags at half mast on governor general's palace, on shipping in harbor and in city. Business suspended, theatres closed. Dead number about 260. Officers being in rear and seamen forward, where the explosion took place, accounts for the greater proportional loss of sailors.

"Funerals tomorrow at 3 p. m. Officers Jenkins and Merritt still missing. Suppose you ask that naval court of inquiry be held to ascertain cause of explosion. Hope our people will repress excitement and calmly await decision.'

MANY SIMILAR DISASTERS.

It is said at the navy department that there are many precedents for such accidents as that sustained by the Maine, all of which can be traced to accidental causes. In 1885 the United States man of war, Missori, lying at Gibraltar, was totally wrecked by the explosion of her magazine.

Another case famous in naval history is that of her majesty's ship Doteral. In 1887 she was lying at anchor off Puenta Areneas in the straits of Magellan. An explosion wiped the ship from the face of the waters and left almost none of her crew alive. This was another case of magazine explosion, though it may have originated in the coal bunkers or boilers.

Against Southern Railroad Subsidy.

Washingron, Feb. 16.—Representatives Shuford and Kitchin of North Carolina, Strait of South Carolina, Lamb of Virginia, and Kieberg of Texas appeared before the house committee on postoffices and post roads this morning and strongly objected to the continuance of the special subsidy of $196,000 paid the Southern railroad sor carrying the mails. Although the postoffice department has urged repeatedly that the payment of the subsidy to the Southern cease, and the committees on postoffices and post roads have omitted the item from the appropriation bills, the house has always voted it back.

Another Rich Pocket.

San Francisco, Feb. 15.—An authentic report comes from Trinity Centra that the Graves brothers have struck another rich pocket in the Blue Jay mine, which yielded a $40,000 pocket last summer and caused a big stampede to the Coffee Creek mines. The brothers refuse to say how much they have taken from this pocket, but it is said to be not less than $60,000.

The Graded school will observe Washington's birthday with appropriate exercises in the Presbyterian church in the morning at 11 o'clock and with a library reception at the Graded school in the evening at 7:30 o'clock. Invitations have been issued and the admission will be a book or its equivalent. An attractive program has been prepared by the pupils of the lower grades and delightful refreshments will be served by the students of the higher grades. Prof. Crowell hopes to add two hundred choice books to the steadily increasing school library. We think this is a good way to accumulate helpful and instructive literature. The following patriotic program has been arranged for the morning celebration:

Song, my Country 'Tis of Thee,—School.

Declamation, Washington's Birthday,—Earl Carter.

Recitation—Miss Annetta Tate.

Song, Star Spangled Banner—Octette.

Introductory Speech—Bascom Hoskins.

Oration, Washington—Alvin Parker.

Dougin Davis sold out his livery business yesterday afternoon to R. B. White who will continue the business at the same place.

Major Watlington, of Caswell county, took dinner yesterday with E. A. Snow.

Dr. Odorn, one of the occulists who have been stopping at Jarrell's Hotel, left this morning for Reidsville where he will reside for some time.

Lin Rush, of Jamestown, who has been laid up from vaccination, is able to travel again. He left this morning for Concord.

T. F. Wrenn arrived in the city this morning from the south where he has been in the interest of the High Point Furniture Company.

A Sad Tragedy.

A Shelby special to the News and Observer says:

Yesterday evening about nine miles from here, the saddest tragedy the country has ever known took place. Sid Grigg, 17-years-old, loved Ella Williams, aged 16. Young Grigg's love was unreturned, and Ella refused to run away and marry him. Yesterday evening while on her way home from school with two little brothers, Grigg rose from the side of her path, where he was in waiting and with a pistol shot his sweetheart through the breast. She fell fatally wounded, but, not satisfied, he shot her twice while lying on the ground dying. Then with the same pistol he blew the top of his own head off, and died at once. Both will be buried today in the same graveyard.

Both belonged to good families, and the tragedy has caused great sadness and sympathy.

Indian Territory.

The secretary of the interior has addressed a letter to the president of the senate in relation to the education of the white and colored children in the Indian territory, saying that in the 250,000 or 300,000 white residents there are at least 30,000 children of school age and 25,000 colored children all of whom are without facilities for obtaining an education.

He urges action by congress to remedy this deficiency and transmits letters from the commissioner of education and the commision of the Five Civilized Tribes.—Washington Star.

27,000 Projectiles Ordered.

Reading, Feb. 15—The Carpenter Steel Works of this city has just received a "hurry-up" order from the Navy Department for 27,000 steel projectiles ranging in weight from 380 to 1,080 pounds each. This will keep the large plant running night and day until late in July, As fast as completed the projectiles will be shipped to different navy yards, after having been examined by Government inspectors.

Reed for President.

Washington, D. C., Feb. 15.—Speaker Reed was nominated for the presidency by Toastmaster Cotton at the dinner of the Bowdoin Alumni here last evening, when Chief Justice Fuller presided, and Speader Reed and President Pro Tem of the Senate Frye made speeches, a trio such as no other alumni association can show.

THE INVESTIGATING BOARD

Admiral Sicard Makes Appointments Today

TO BEGIN WORK IMMEDIATELY

Afterward a Deliberate Investigation of the Maine Disaster Will be Made by a Formal Court.

By Wire to THE TELEGRAM.

Washington, Feb. 17—Rear Admiral Sicard, commanding the North Atlantic squadron, has informed the navy department that he has appointed a board of inquiry to investigate the caused of the accident to the Maine as follows:

Captain Simpson, president; Captain Chadwick, Lieutanant-Commander Schroeder, Lieutenant-Commander Marix, Sampson, present commander of the Iowa at Tortugas.

Schroeder is the examining officer of the Massachusetts, Chadwick is commander of the New York and Marix, an executive officer of the Vermont, formerly the Maine has been appointed judge advocate of the board. The board will institute proceedings without delay. In the ordinary course of events the report should be made to Admiral Sicard within two or three days. Without questioning the proceedings of this board a formal court of inquiry will be appointed which will pursue the matter deliberately. The present aim is to obtain a preliminary report at the earliest possible moment.

RAILROADS FIGHT.

Southern and C. & N. W. Tussle Over a Switch.

Hickory, N. C., Feb 16.—On Monday night the Southern railway sent a crew of laborers to Hickory from Morganton and constructed a switch across the main line of the Caldwell and North Western railway in the western part of town.

The switch was built to get a siding at Hickory Manufacturing Company's shop and Piedmont Wagon Works. President Harper, Superintendent Nichols and Attorney Jones of the C. and N. W., hurried here, when they learned of the Southern's action. The Southern left a large crew to sleep in the cars near the switch. Tuesday night, about twelve o'clock, the C. and N. W. sent in a gang of hands who began tearing up the tracks. About three a. m. the Southern's men hurried to the place and began putting back the rails. The two gangs struggled together till morning, the Southern getting most of the switches back as they had more men. The situation became serious, the men wrestling over the track, throwing each other off the switch and seizing crow bars. A general fight was imminent. Mr. Hufham, mayor, with thirty armed deputies went to the scene and announced that the law would be enforced at any cost. The contending gangs fell back, the C. and N. W. on one side of the switch, the Southern on the other.

The deputies are occupying the switch and all parties are watching each other, but there is no trouble.

About eleven o'clock the Southern received a car load of reinforcements.

Reinforcements were sent by C. and N. W. from Lenoir and Granite on wagons and cars. After some dispute the C. and N. W. passenger train bound for Lenoir was allowed to pass. No further disturbance, but all hands are on the look out. About 3 o'clock p. m. Superintendent Nichols of the C. and N. W., and Road Master Dodson, of the Southern, appeared and announced to their men that the difficulty had been settled. The railroad men and deputies are leaving the ground and there is great excitement over the affair.

All is quiet now. The Southern had about 150 men and the C. and N. W. about 100.

The Southern claimed the switch was on their right of way.

The terms of settlement could not be learned exactly, but operations all suspended until Presidents Spencer and Harper can confer.—News and Observer.

Will Smoke Him Out.

Terre Haute, Ind., Feb 15.—John Carrington, the desperado, who murdered two men near the city, is hiding in a deserted coal shaft. Today a sheriff's posse entered the mine, but were compelled to retreat as the outlaw fired several shots at them. It is the intention of the authorities to set fire to the mine.

CURRENCY REFORM.

Hearing Before Currency Committee Finished.

By Wire to THE TELEGRAM.

Washington, Feb. 17—The house banking and currency committe has finished the hearing accorded the four members of the committee to authorize currency measures. A sub-committee consisting of McCleary, of Minnesota, chairman, Prince of Illinois and John Mitchell of New York, was appointed to draft a general currency measure to be pushed at this session. It will hold daily sessions and report in about a fortnight.

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstory had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses got broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw at a glance that neither lens accorded with the prescription, and so changed them both. Mr. Vanstory sent the old lenses with an explanation to the occulist who had given the prescription and in reply received the following;

LET US WAIT.

The blowing up of the Maine in the harbor of Havana has shocked and grieved the whole American people. Since the Camperdown catastrope in the English navy and the wrecking of the vessels in the harbor of Samoa there has been no horror at sea approaching it.

The Washington authorities are right in urging that judgment he reserved. It is not an occasion for the making of cheap political capital. It is a matter that has already touched the hearts and may ultimately touch the honor of the whole people.

There is nothing to do but wait for an explanation of the mystery. It is even possible that it may never be explained. In any case no blame should attach to any one until it has been decided where the blame should rest.

In behalf of the Spaniard it must be said that he has not been noted for his treachery. He has shown himself cruel, tyrannical, revengeful but has generally fought his battles in the open.

It is not very apparent that Spain would have gained much by treacherously blowing up the Maine. One cruiser less would not greatly weaken the United States. Detection would mean war to the death with the sentiment of the whole civilized world against her. Spain has been and is anxious to avoid war.

If it shall finally apper that the explosion was the result of an accident the effect will be far reaching. It will show the utter unreliability of the modern warship. If a ship blows up when peacefully at anchor what is likely to happen when an enemy is raining high explosives upon her hull?

The catastrophe has brought home to our people something of the horror of war. It was only a few weeks ago that the Maine's departure was hailed with proud acclaim by the people and the press. She was going as a representative of our might to uphold the dignity and power of the nation. To-day she is at the bottom of the ocean and even her own officers do not know who struck the blow. It is a pitiful lesson, even a bitter humiliation.

If it shall appear that Spain connived at the Maine's destruction then the American people will know how to avenge that destruction. Of that there cannot be two opinions. It is hard to believe that Spain was a party to such dastardly treachery. Let us wait.

Commenting upon a recent article in this paper in which the cost of arc lights in High Point was placed at from $38 to $41 per year the High Point Citizen says:

"The Telegram is mistaken in regard to the cost of running the arc lights in the city of High Point. Instead of being from $38 to $41 a year, it costs but $12 to run a street lamp for a year. Furthermore, the system gives perfect satisfaction and is acknowledged to be one of the best in the State."

The figures were given the Telegram by an electrical expert who investigated the cost at the instance of the paper. We are inclined to think that the $12.00 represents the cost of the arcs to the city after deducting the profits from the incandescents paid for by the citizens. We have no incandescent electric lights here and the Telegram was getting at the cost of arcs apart from incandescents supplied by the same plant. The matter was very carefully looked into and we feel sure our figures are approximately correct as above.

Mr. Bryan has been the most abused man of the decade, He has for all that retained the respect and admiration of most of the American people, even of those who abused him; but he should show somewhat less of fondness for populist palavers. He may be the logical candidate for the democratic nomination in 1900 for the presidency but we venture the prophecy that if he takes part in a few more pow-wows of the Minneapolis sort he will not get the nomination and if gets the nomination will fall short of the presidency. There is a pretty well defined line between populism and democracy. Let Mr. Bryan keep that fact in mind.

"There is every reason to expect a general emigration of the New England looms and spindles to the South in the near future."—Philadelphia Times.

If this be true, steps should be taken to impress on prospecting mill men the advantages of this city as a location for their industries. Go south or go out of business—that is the alternative presented to many of them. With a little judicious encouragement it is plain which they will choose. Our Industrial and Immigration Association would do well to look into the matter.

Did the approaching municipal election have anything to do with the recent deluge of light on the bond question from which the honorable board barely escaped with its eye sight?

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and $1.00 per bottle at C. E. Holton's drug store.

I feel it my duty to testify to the superior merits of "Rice's Goose Grease" as a cough cure. On Friday night the 7th inst I coughed almost the entire night. Cough syrups etc. failing to bring any relief whatever. On the following night I decided to test the virtue of your remedy by bathing my chest thoroughly with it and going to bed, and I tell you honestly I never slept sounder in my life. I take pleasure in commending "Rice's Goose Grease" to those who may be in need of a cough cure.
Wishing you much success. I am

Are You Always Tired?

WINDSOR, N. C., May 24, '97.

Five years ago I was completely run down from general debility. My liver didn't act, I had indigestion, was just as nervous as I could be, and was always tired. The least exertion would bring on shortness of breath and it was a drag to me to keep up. A friend of mine who had been cured by using Mrs. Joe Person's Remedy told me to take it. I bought ½ dozen bottles and took it just because I knew I would have to try something. I suffered greatly from wakefulness, would lay awake often the greater part of the night, unable to rest or sleep. When I was on the second bottle I got so I could sleep, and when I had finished the six bottles I WAS WELL. Indigestion cured, that shortness of breath cured, and I feel like another person. Mrs. Joe Person's Remedy is a wonderful medicine. It did me more good than anything I ever took in my life,

R. M. McArthur was here this morning returning home to Winston from Richmond.

Senator John W. Daniel, of Virginia, was here this morning, enroute to Raleigh.

W. H. Parks and Benjamin Moffitt, of Franklinsville, spent yesterday afternoon in the city, stopping at the Benbow.

Miss Eleanor Follin and J. B. Whitaker, Jr., of Winston, and Mrs. W. D. Moore, of Durham, passed through last night en route to New Orleans to the Mardi Gras.

France has a curious custom of distributing the tobacco shops, which are government offices, to the widows and other needy relatives of her distinguished. Among the recipients of the 261 bureaux de tabac given last year are Mme. Jules Simon, widow of the the Acadamician, Senator and Minister; the widow of a general of division, of four generals of brigade and of a Rear Admiral and the daughters of a professor at the Sorbonne.

Difficult to Access.

"She is very frigid in her manner," remarked Willie Washington.

"Perhaps," was the reply; "but she has a heart of gold."

"So I have been informed. But I am tired of trying to cross a conversational Chilkoot pass in order to reach it."—Washington Star.

FOREST FIRES.

The Worst in Years are Raging Along the R. and A. Railroad.

Yesterday afternoon the Press-Visitor announced that forest fires were raging near Southern Pines.

Today the news comes that the fire extends from Camerom to Hamlet and the woods are burning on both sides of the track.

Captain Alderman says the storm was the worst he ever saw. Several houses were destroyed by the flames and the people were panic stricken.

At Southern Pines yesterday evening the smoke was so dense that the engineer could see only a few feet ahead. The rails were hot and the ties were on fire at some places. Mounted men fought the fire but they could accomplished nothing. The railroad section house at Hamlet was burned.

The woods were on fire around Cary yesterday. Mrs. Weathers' house near Cary was burned. The smoke stack of the Cary Lumber company's plant was blown down and other damage done.—Press-Visitor.

Anchored The House.

The fire alarm turned in from box 42 at 7:13 last produced considerable excitement for sometime, as it was known that a fire in the city at that time would be hard to control. The department turned out and were soon advised that there was no fire, but that their assistance was needed to prevent the Pepper & Brock leaf tobacco factory, on West Seventh street from blowing down. It was moved several feet. The building is rented by T. L. Vaughn & Co., who have about 200,000 pounds of leaf tobacco in it.

The fireman and other friends, by the use of about $40 worth of rope, managed to keep the factory from toppling over. The ropes were put around the building at the third story and tied to a large tree.—Winston Sentinel.

THE MAX KARGER

Concert Company Will Appear at the Normal College Monday Night.

Of the members of the Karger Concert Company, which appears at the Normal College next Monday, the critics say:

"Max Karger is a western boy of 20 who studied in Chicago until he was 16, after which he went to Europe to learn something. He has learned it. He has brought temperment, intelligence and sentiment from Germany. He has found the poetry of the violin. The world is before him."—Press, Nov. 8, '97.

At the musicale last night at the Waldorf, S. P. Vernon, a young basso cantante, sang the Don Carlos Aria and won hearty pladits by dint of his superb voice and excellent methods.—The Leader.

Miss Marie Mildred Marsh presented a tremendous program. She played the G Minor Concerto of Saint Saens with orchestra, with an extraordinarilly sure technique and musical feeling. Her touch is very elastic and beautiful in all nuances and grades of shading. Exceptionally fascinating by the young virtuoso was the second movement, Allegro Scherzando.—From Berliner Neueste Nachrichten.

Miss Jeannette MacClanahan sang the aria, "Etienne Marcel," St. Saens; "Separation," Hillemacher; "Spring Song," Hyde. With her sweet and sympathetic voice she gave all these songs with charm, artistic finish and rare intelligence.—American Art Journal.

THE SILENT REAPER.

Death of Mrs. Eleanor B. Wysong Last Night.

Mrs. Eleanor B. Wysong, the mother of Mr. O. C. Wysong, of this city, died at the latter's home on West Lee street at 10 o'clock last night. She was born May 2, 1822, in Bedford county, Va. Her husband, Lewis Wysong, died more than thirty years ago and left to her care ten children, six sons and four daughters. Two of the sons have since died, the others are all living.

By prudence, economy and sound judgment, Mrs. Wysong reared them and for some years has made her home with her son, O. C. Wysong, at whose house she died.

When 12 years of age she made a profession of faith in God and lived through all these years with the consciousness that she was a Christian. The Bible was her delight; she studied it closely and had read it through many times.

At her request her remains will be interred at Troutville, Va., whither they will be carried tonight.

We extend sympathy and condolence to the sorrowing relatives and friends.

"Opposite Lindau's."

Last night a gentleman was wandering around down about the depot with grip in hand, seemingly looking for some one. There were no carriages or hotel porters around and seeing a little darkey across the street called to him and said: "Where is the Benbow?"

Up de street yoner, in from of Mr. Lindau's; jes' 'cross de street," replied the little coon.

"Well, where in blazes is L——" But the boy was gone, disappeared around the corner at Clegg's and his wicked laugh was distinctly heard as he ran up Buchanan street at a 2:40 gait.

A Practical Mind.

"You see," said the Spanish official who was disposed to be cautious, "we are a proud, hot-heated race; impatient when we are hindered and swift in our resentment.

"That's very true," replied the other.

"So, all things considered, I think it might be a good idea to have the public printer get us up some blank forms of apology, so that they can be filled out with the least possible delay when anything of the kind is needed. —Washington Star.
